

LFT Database View / Alibi Memory

Process Guide — Local Accessible Database View

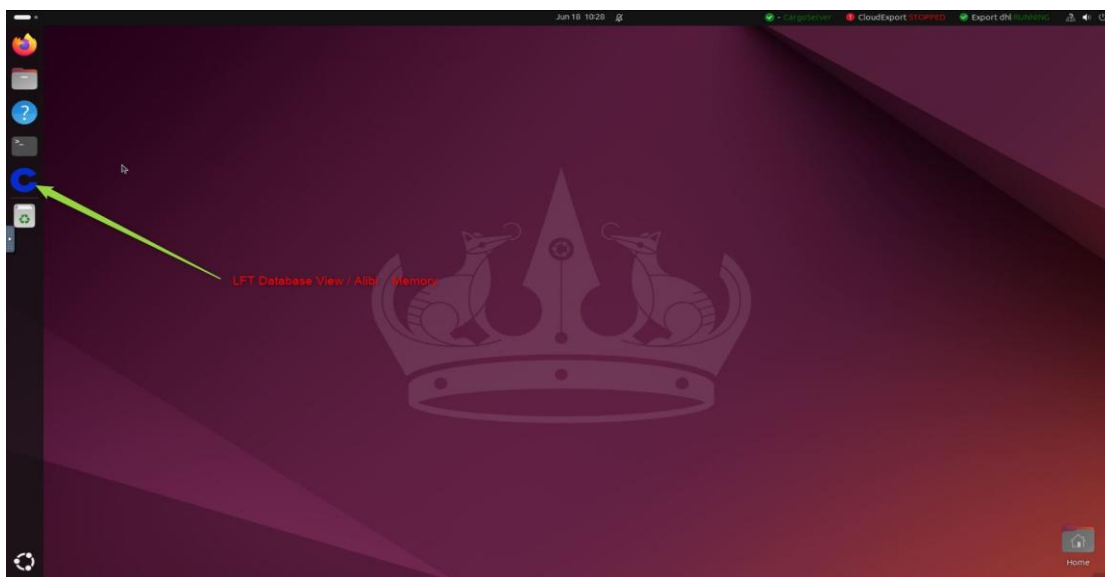

Step 1 — Open CargoServer

Go to the CargoServer screen to access the data.

Step 2 — Open Cind LFT Database View / Alibi Memory

Click on the Cind icon (the blue C icon) in the left sidebar of the desktop. This opens the LFT Database View / Alibi Memory application.

Step 3 — LFT Database View Overview

The LFT Database View / Alibi Memory screen is now open. Here you can access the following information:

- **Timestamp** — Date and time of each passage
- **Piece ID** — Measurement / Freight Identifier
- **Alibi ID** — Unique alibi record identifier
- **System ID** — The system that recorded the entry
- **Dimensions** — Length, Width, and Height of the freight
- **Receipt & Signature** — Toggleable columns via Visible Columns

Additional capabilities:

- Filter records by Piece ID, Alibi ID, System ID, Timestamp Range, or dimension ranges
- Set rows per page and navigate across pages (up to 1000 latest passages loaded)
- Reload Latest rows using the Reload Latest button
- Switch Filter Mode between AND / OR logic
- Reset Filters to clear all active filters
